

# PRINCE2 Agile - Practitioner

## Overview

The PRINCE2® is the first choice of project management certifications for many public sector organizations including the National Health Service, Police Departments, Oil & Gas Industry, Construction Industry, IT Industry, Banking Industry, Engineering Industry, Operations Management Industry, and Marketing Industry.

## Course Objectives

By the end of the PRINCE2 Agile® Practitioner course you should be able to:

- Understand the basic concepts of common agile ways of working
- Explore the purpose and context for combining PRINCE2® and the agile way of working
- Apply and evaluate the focus areas to a project in an agile context
- Fix and flex the six aspects of a project in an agile context
- Apply or tailor the PRINCE2 principles, themes, processes, and management products to a project in an agile context
- Prepare delegates for the PRINCE2 Agile® Practitioner exam

## Duration

2 Days

## Who Should Attend

The target audience for this course is Project Managers and aspiring Project Managers, and other key staff involved in the design, development, and delivery of projects including:

- Project board members (e.g. Senior Responsible Owners)
- Team managers (e.g. Product Delivery Managers)
- Project assurance (e.g. Business Change Analysts)
- Project support (e.g. Project and Program Office personnel)
- Operational line managers / staff

## Prerequisites

Those with PRINCE2 Agile Foundation or any pre-requisite knowledge of PRINCE2 are eligible to sit the certification as this will be covered during the training.
